PROFESSIONAL SUMMARY

A self-motivated and detail-oriented Full Stack Developer with hands-on experience in building responsive web applications. Seeking an internship position to further develop skills in both front-end and back-end technologies while contributing and adding value to innovative projects in an organization.

WORK EXPERIENCE

Full Stack Developer Intern

June 2024 - Present

CRITIVIEW

Remote, Nigeria

- Collaborated with a team of 3 developers to build and maintain Critiview's waitlist web application and Minimum Viable Product using **React** and **Node.js** stack.
- Implemented responsive designs using Tailwind CSS.
- Assisted in developing a referral leaderboard feature, resulting in a 25% increase in new user signups and a 20% boost in overall user acquisition within the first month of implementation. **(Beta testing)**
- Optimized database queries, reducing page load time by 15%.
- Assisted in the development of RESTful APIs using **Express.js**, creating 15+ endpoints.
- Participated in daily stand-ups and bi-weekly sprint planning sessions, consistently meeting 95% of sprint goals.
- Utilized Git for version control.

Software Development Trainee

March 2024 - Sept 2024

GOMYCODE-NG

Yaba, Lagos, Nigeria

- Completed an intensive 6-months full-stack web development training.
- Developed multiple full-stack projects using **HTML, CSS, JavaScript, React, Node.js, Express.js**, and **MongoDB**.
- Achieved a 98% score on the final capstone project, building a fully functional e-commerce platform.
- Participated in 20+ pair programming sessions and collaborative coding challenges.

PROJECTS

E-commerce Platform (Clothing Store)

- Developed a full-stack e-commerce application as the GoMyCode capstone project.
- Implemented user authentication and authorization using JWT (JSON Web Tokens) and bcrypt for secure password hashing.
- Created a responsive front-end using React and Tailwind CSS, ensuring a seamless shopping experience across devices
- Built a robust back-end with Node.js and Express.js, handling product management, user accounts, and order processing
- Designed and implemented a MongoDB database schema for efficient data storage and retrieval
- Integrated payment processing (simulated) and order tracking features

Full-stack Web Applications

- Created multiple responsive front-end projects using HTML5, CSS3 (Bootstrap and Tailwind CSS), and JavaScript (ES6)
- Built dynamic single-page applications with React, implementing state management and component-based architecture
- Developed back-end services using Node.js and Express.js, creating RESTful APIs and handling server-side logic
- Ensured cross-browser compatibility and mobile responsiveness across all projects

EDUCATION

BSc. Political Science

Kwara State University, Ilorin
2016 — 2020

Software Development

GOMYCODE-NG
2024

SKILLS

SOFTWARES & LANGUAGES

- Jira · ClickUp · Teams · Slack · Notion · GitHub · Postman · Git
- HTML5, CSS3 (Bootstrap, Tailwind CSS) · JavaScript (ES6) · RESTful APIs
- React · Node.js · Express.js · MongoDB · JWT · bcrypt

SOFT SKILLS

- Effective Communication · Analytical Approach · Problem-solving · Adaptability
- Creative Thinking · Customer-centric · Collaboration · Flexibility · Empathy
